Empathy Map

This empathy map represents the perspective of a farmer using the OptiCrop system. It helps understand the farmer's needs, concerns, actions, and emotions while selecting the most suitable crop based on soil nutrients and environmental conditions. The machine learning system provides intelligent crop recommendations to improve productivity, optimize resources, and support sustainable farming.

SAYS	THINKS
- Will this crop grow well in my soil? - Are my soil nutrients sufficient? - Will rainfall and weather affect production? - Can I earn better profits with this crop?	- Will this crop grow well in my soil? - Are my soil nutrients sufficient? - Will rainfall and weather affect production? - Can I earn better profits with this crop?
PERSONA NAME Farmer (Primary User)	
DOES	FEELS
- Enters soil nutrient values (N, P, K). - Provides temperature, humidity, pH, and rainfall details. - Views the recommended crop. - Uses the recommendation for cultivation planning.	- Hopeful about getting better crop yields. - Confident in data-driven recommendations. - Worried about unpredictable weather conditions. - Satisfied when the recommended crop performs well.
