

Customer Journey Map

Date	25 June 2026
Team ID	
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	2 Marks

Customer Journey Map

Mapping out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions	Farmer enters soil nutrient and environmental details (N, P, K, temperature, humidity, pH, rainfall).	System analyzes the data using the machine learning model.	Farmer receives the recommended crop and uses it for cultivation planning.
Touchpoint	OptiCrop Web Application	Machine Learning Prediction Engine	Recommendation Results Page
Customer Thought	"I hope the system recommends the best crop for my field."	"I wonder how the recommendation is generated."	"This recommendation will help me achieve a better yield."
Customer Feeling	Curious and hopeful	Interested and confident	Happy, satisfied, and motivated to cultivate the recommended crop
Process Ownership	Farmer / User	Machine Learning Model & Flask Backend	Recommendation System & User
Improvement Opportunities	User-friendly input forms and clear guidance for entering soil data	Improve prediction accuracy using larger datasets and advanced ML algorithms	Provide fertilizer suggestions, weather forecasts, and multilingual support.
